IMAGINE

a hearing solution tailored to you

Beltone Imagine™

The all-new
Beltone Imagine

Experience a revolutionary hearing aid that's raising the standard for hearing solutions. After years of innovating, we created a device that's uniquely tailored to you. Our groundbreaking hearing aid technology uses your individual ear shape to deliver sound so naturally, you'll hear exactly as nature intended. Now you'll feel empowered and confident in any environment knowing you'll have premium sound quality, a full understanding of your surroundings, and the best speech recognition – even in the most complex environment.

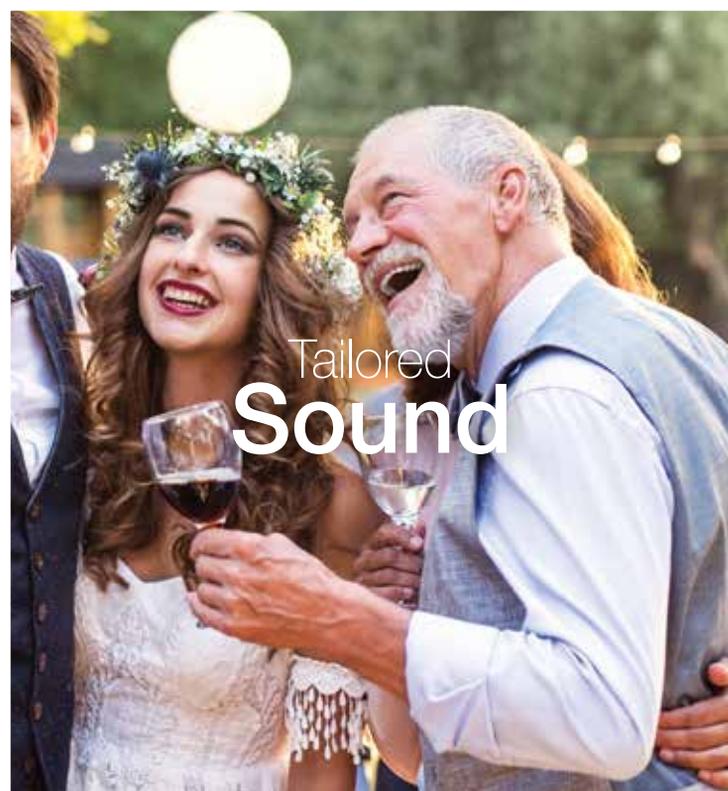

Along with the exceptional sound comes Beltone's tailored care: a promise to be right beside you on your journey to better hearing, every step of the way.

Introducing
the world's first
truly tailored
hearing experience

made possible by **M&RIE***.
(Microphone & Receiver-In-Ear)

*Full-featured hearing aid with M&RIE, microphone and receiver in ear, plus two directional microphones.

Hear as nature intended

Introducing Beltone Imagine, the world's first hearing aid that uses the shape and contours of your specific ear to provide sound tailored exactly to you.

We challenged ourselves to take our hearing innovations to the next level and created something truly groundbreaking with Beltone Imagine. Our new revolutionary hearing technology, Microphone & Receiver-in-Ear hearing solution (M&RIE), filters and delivers the most natural sound yet. M&RIE is a hearing solution unlike any other. It works with your unique ear shape to collect sound just as nature intended.

M&RIE's innovative inner-ear design effortlessly processes multiple sounds at once. This brings you premium sound quality, a full understanding of your surroundings, and even better speech recognition than before – ensuring you'll always feel confident about your hearing, no matter the environment.

When you wear Beltone Imagine, you can focus on exactly what you want to hear, without losing out on the other sounds around you. We created all of this so it's even easier for you to stay engaged and enjoy conversations in social settings.

Made to work in any situation

Makes your day easy and enjoyable

You're always in control of your hearing with Beltone Imagine. Thanks to our innovative CrossLink Directionality 3 technology, you'll enjoy having a complete understanding of your surroundings and be able to focus on the sounds that matter the most. The technology continuously monitors every sound in your environment, so you can quickly and easily choose which sound to listen to, and provides the best speech understanding, without any disorientation, because it also automatically adjusts to your situation. You'll feel more involved and comfortable in your social settings.

Zero-in on the conversation

No matter how complex the environment, you'll always have the best possible speech clarity with our brand-new Ultra Focus feature. When you're in demanding situations, like a bustling restaurant or an outdoor event, and you want to fully zero-in on just the sounds in front of you, simply turn on the Ultra Focus program – via your hearing aid or the Beltone HearMax™ app on your smartphone. When Ultra Focus mode is on, both the right and left hearing aids completely concentrate on the sound directly ahead of you, eliminating any surrounding distractions. Now you can enjoy the ease of always having the best conversations in any location.

Made for
iPhone | iPad | iPod

Works with
android

Stay engaged with all your favorites via direct audio streaming from iOS and Android™ devices

Beltone Imagine provides the best streaming capabilities with Bluetooth® Low Energy for iOS devices and a growing range of Android devices. With this premium technology, you'll receive crystal-clear audio directly into your hearing aids.

You'll feel empowered and free with Beltone Imagine Bluetooth Low-Energy compatibility and its ability to directly stream all your favorite services right to your ears. Enjoy streaming phone calls, GPS, internet radio, music, podcasts, and audiobooks. Our upgraded technology also includes mix-in audio streaming that eliminates connection delays. Now there is no need to worry about missing the first words of an important phone call or not hearing a key GPS direction.

Countless ways to connect

The Beltone HearMax app is an intuitive app for those with Beltone Imagine. You can easily control volume and adjust programs, noise reduction, speech focus, and more directly from your iPhone, iPad, iPod touch, Apple Watch, or Android devices. Simply download the app for free from the App Store or Google Play and start managing any sound setting at your own convenience.

Stay connected

The multiple connectivity features of Beltone Imagine keep you connected to all your favorite entertainment and communication technologies. Choose from a range of wireless accessories that offer extra ways to enjoy a personalized listening experience.

Beltone TV Link 2

Streams sound directly from any TV to hearing aids for seamless entertainment and a crystal-clear listening experience.

Beltone Phone Link 2

Enjoy hands-free phone calls and stream conversations directly to your hearing aids via Bluetooth services for easy, seamless phone calls.

Beltone Remote Control and Remote Control 2

With one of these controls in your hand, you can adjust volume and change hearing aid programs for TV, radio, computer, etc. quickly and easily.

Beltone myPAL Pro and myPAL Micro

Attach the devices to friends, colleagues, family, etc. for the clearest sound and speech understanding, no matter the location.

Care tailored to your needs

Whether you're beginning your hearing journey or upgrading your hearing aids, we're here for you – every step of the way. It's important to us that you get the most out of your hearing aids, so you can get the most out of life! Be it in-store meetings or from the comfort of your home via Beltone Remote Care Live, we'll be right beside you, ensuring your hearing aids always work exactly how you imagined.

Enjoy hearing care from anywhere

Get care from the comfort of your home with Beltone Remote Care Live. Our latest video chat technology lets you and your hearing care professional easily meet face-to-face, via the Beltone HearMax app, to quickly resolve any issues and remotely fine-tune your hearing aids. Now whenever you're in need, you can get customized care – even from afar.

How Beltone Remote Care Live works

1. Your hearing care professional (HCP) initiates a video call from their office at the time you both agreed upon.

2. You simply accept the call.

3. Your HCP makes real-time fine-tuning adjustments to your hearing aids according to your needs.

4. Your hearing aids are fine-tuned – from any location.

A man with a beard and a woman with short white hair and glasses are smiling at each other in a store. The man is holding a bouquet of white flowers. The woman is holding a bouquet of orange flowers. The background is filled with colorful ribbons hanging from shelves.

A design
tailor-made
for you

The Beltone Imagine hearing solution is made for your needs. We've created a brand-new design that significantly improves aesthetics and comfort. The hearing aid sits comfortably in your ear, making it easy to handle and even easier to wear. The vast color range can elegantly complement your hair and skin tones, making your hearing aid more discreet than ever. That, combined with three shapes and two rechargeability choices, makes Beltone Imagine a customizable and completely tailored hearing solution for you.

Designs that **make** **a difference**

Designed to suit you perfectly

Beltone Imagine was made with you in mind. Its new look and feel were designed based on our experience that hearing aids need to be as discreet and comfortable as possible, so you can easily move about your day. The protective and ergonomic design of Beltone Imagine has superior reliability for worry-free usage. The lightweight design comes in three models based on battery and model preference. You can choose whichever style best fits you.

Choose your favorite color

Because no two people are the same, having a diverse color palette is important. Beltone Imagine comes in an array of colors, so you can choose the color that fits your hair, skin and style best. Select from Sparkling Silver, Champagne, Gold, Bronze, Warm Grey, Graphite, Espresso, and Deep Black.

Stay charged

Beltone Imagine offers two types of stylish and high-performance chargers to meet your needs, preferences, and lifestyle. The chargers can also be used as portable and protective display cases – ideal for travelling.
